SILO FEATURES:

All Silo's are manufactured with cable remote centre—fill caps

High strength aviation rivets are used in conjunction with high tensile Zincalume walls making for a strong reliable structure.

The cone bases are fully welded for optimum strength. All base materials used are galvanized.

Other great features include:

- Man hole in base.
- Sight glasses.
- Cone sits above butterfly valve to assist in operation.
- Child proof ladder runs the full height of the silo.
- Ladder operates at 70 degrees to the Silo and retracts to sit against the wall when not in use.
- All silos comply with occupational health and safety guidelines.
